

Imagine you have been on a world tour to the following places: *the Sahara Desert, the Amazon Rainforest, The Himalayas, Antarctica, Western Europe, Bangladesh* choose two contrasting locations, (one densely, one sparsely populated) and write a postcard from each.

Your postcard should contain the following information:

- i) How dense or sparse the population is.
- ii) An explanation of why the population is dense or sparse by describing the environment (consider things such as climate, vegetation, communications, transport systems, landscape, ability to grow crops, water supply etc,..)
- iii) Make your postcards as descriptive as possible.
